

CP- SA-L1030-V**IR Illuminator - 100 Meter****Main Features**

- Smart uniform IR radiation solution improves image quality & monitoring effect
- Leading IR technology provides high efficiency and long life span of LED
- Accurate constant circuit drive develops excellent performance of product
- Indoor/outdoor use, all-weather use.
- High integrated solution for easy installation and saving cost.

CP- SA-L1030-V

IR Illuminator - 100 Meter

Specification

6pcs 2W High Power IR LED
850nm
30°
Tempered glass panel
100 Mtr.
CDS 10-20lux ±10%
Bottom mount bracket
-40°C to 60°C
IP66
Air cooling internal circulation
Included
Aluminum Die Casting Housing
1000mA (Depends on input current)
DC12V
12W
<φ57mm
250mm x 90mm x 10mm
4.8kg
5.4kg
