## Outdoor Unit

| Feature               | Specification             |
|-----------------------|---------------------------|
| Camera                | CMOS                      |
| Camera Pixels         | 0.3M                      |
| Display               | 3.5" Dot Matrix Screen    |
| Button                | Mechanical Button         |
| Audio Codec           | G. 711U, G. 711A          |
| Video Codec           | H.264                     |
| IR Night Vision       | Supports                  |
| Cable Type            | Cat-5e                    |
| RFID Card Reader      | IC/ID/Reserved (Optional) |
| Unlock Card Type      | IC/ID (Optional)          |
| Numbers of Cards      | 10,000 pcs                |
| CPU                   | F20 350Mhz                |
| RAM                   | DDR2 1Gbit x 2            |
| Flash                 | 16Gbit                    |
| I2C EEPROM            | 16K x 8bit                |
| Protocol              | SIP                       |
| Exit Button           | Yes                       |
| Ethernet              | RJ45 (10/100 Base-T)      |
| Operating Temperature | -10°C- +55°C              |
| Humidity              | 20~93%                    |
| Power Source          | DC12V                     |
| Power Consumption     | 6W                        |
| Weatherproof Standard | IP55                      |
| Dimension             | 155mm x 375mm x 46.5mm    |
